Retail
POS Suite

A Point of Sale System for Strategic Business Advantage and Operational Excellence

Retail POS Suite - Designed to Benefit Small, Mid-Size to Large Retailers

As an independent business owner, you know that an efficient Point of Sale System goes a long way in enabling you in making the right business decisions involving inventory, security and customer experience.

You need a POS System that not only manages your daily point of sales activities proficiently but is also flexible enough to integrate with your Sales and Marketing strategy.

Retail POS Suite is designed for small, mid-size to large tier retailers like you to provide you the maximum benefits of POS, by keeping its operation simple. You can delight your customers with a superior shopping experience and at the same time maintain control over your inventory through integration with your supply chain and resource management systems.

Simple yet Powerful Features

Retail POS Suite is a simple, yet powerful business solution for retailers like you to efficiently automate your daily point of sales activities helping you compete and succeed in the ever changing retail market.

Retail POS Suite empowers your staff to provide professional and personalized services and maintain loyalty among your customers. It offers an easy, intuitive and user friendly GUI, with a role-based user experience that provides employees with critical information to make better decisions.

Specially designed to meet the demands of the retail industry, Retail POS Suite is easy to implement and use, with an ability to integrate with a wide range of hardware bringing in tremendous flexibility with a high degree of user friendliness.

With an ability to be configured around your sales and marketing initiatives, Retail POS Suite ensures that you can execute your marketing strategies across your stores to ensure your customers do not miss on any opportunities you have to offer.

Retail POS Suite solution can be seamlessly integrated with NetSuite, the industry's leading cloud-based ERP/CRM suite enabling you to gain instant access to stock and customer information for better customer relationships and enhanced sales.

Retail POS Suite Benefits

▶ **Checkout efficiency & accuracy**

More accurate and faster checkouts allows employees to spend more time on the floor helping customers and less time behind the counter

▶ **Build excellent customer relationship**

Enhance shopping experience of customers with flexible payment options, promotions and loyalty programs

▶ **Reduce training overheads**

Reduce training requirement with user-friendly interface that demands minimal training, thus facilitating easy acceptance by employees
